

Why are Country Smoke House Viennas & Bologna the healthiest and best tasting choice? If you are looking for something healthy, just compare the ingredient labels to any other brand.

- You will NOT find chicken, turkey, fillers or subgrade meats in our products.
- We use natural casings that cause that “crunch”, fresh peeled garlic, sea salt instead of refined salt, natural spices and we DO NOT mechanically debone our meat products. (When mechanically deboning - you get many byproducts in your hot dog/bologna that you wouldn't want to eat).
- CSH cooks in our smoke house with natural hardwood smoke.
- We use top quality pork and beef to produce a great tasting hot dog/bologna. You can seriously taste the difference!
- If you haven't tried a Country Smoke House Vienna/Bologna, you might extend your bucket list a bit longer by eating healthy foods from Country Smoke House!
